DEPARTMENT OF NATURAL RESOURCES  
DIVISION OF OIL, GAS AND MINING

355 West North Temple

3 Triad Center, Suite 350

Salt Lake City, Utah 84180-1203

801-538-5340

October 12, 1990

TO: File

FROM: Susan M. White, Biologist *SMW*RE: NOV N90-35-01-01, Co-Op Mining Company, Bear Canyon Mine,  
ACT/015/025, Emery County, Utah

*5*  
The remedial action required to abate this violation included cleaning out culvert, regrading the gully which developed from the clogged culvert, and recreate drainage to the culvert. The abatement date for these items was October 10, 1990, 5:00 p.m.

Mr. Wendel Owen and Mr. Gerald Hansen of Co-Op Mining Co. were contacted by me on October 10, 1990 at approximately 2:30 p.m. I informed both of them that I would be visiting the site on October 11, 1990 at 8:00 a.m. to inspect the remedial actions required to abate NOV N90-35-01-01.

Mr. Tom Munson, Division Hydrologist, and myself visited the site on October 11, 1990 at 8:00 a.m. At that time the operator was working on the abatement measures. The lower portion of the gully was not regraded and the drainage to the culvert was not established. The operator was informed that this was a possible FTACO.

After discussion with the Division, the decision was made to issue a FTACO on October 12, 1990.
